Communication

Have you ever experienced that?

Time-consuming preparation

Creating a schedule in Word, printing it, and pasting it together takes one hour per week.

Family/structure breakdown

The tool used at the school is not the same as the one used at home.

No built-in AAC tool

Generic printed sequencers, not adapted to each profile

Siloed work

Each educator starts from scratch, no content is shared between colleagues.

"I used to spend an hour each week preparing the schedule in Word. With Pictalk Buddy, I do it in five minutes from my phone."

Julie, special education teacher
